PROFESSIONAL SUMMARY

Dynamic and versatile technology professional with a robust background spanning IT infrastructure, network security, and modern web software development. Demonstrated expertise in deploying and configuring Fortinet FortiGate 40F enterprise firewalls, optimizing multi-site network operations, and delivering dedicated on-site branch technical support. Pioneering high-velocity 'vibe coding' workflows and AI orchestration tools alongside low-code/no-code integrations to radically compress software delivery timelines and engineer fluid, scalable solutions.

TECHNICAL SKILLS

- Networking & Security:** Fortinet Firewalls (FortiGate 40F Configuration & Branch Deployment), pfSense, TCP/IP, Routing & Switching, VPNs, LAN/WAN Troubleshooting, On-Site IT Support.
- AI & Modern Workflows:** Vibe Coding, AI Agent Orchestration, Prompt Engineering, No-Code/Low-Code Architecture, VAPI, Voiceflow, Make.com.
- Frontend Development:** React.js, JavaScript, TailwindCSS, HTML5, CSS3, Three.js, Framer Motion, Axios.
- CMS, Databases & Tools:** WordPress, WooCommerce, Shopify, MySQL, phpMyAdmin, Git, GitHub, VS Code, Microsoft Excel.

PROFESSIONAL EXPERIENCE

IT Support Officer | MNT Halan Microfinance Bank

Sept 2025 – Present

- Configure, deploy, and manage Fortinet FortiGate 40F firewalls across enterprise networks and branch sites to ensure robust perimeter security and data protection.
- Provide hands-on, high-priority on-site technical support to remote and local bank branches, resolving critical IT infrastructure, hardware, and network connectivity issues.
- Deliver comprehensive IT and network support to guarantee seamless, 24/7 uninterrupted daily banking and financial operations.
- Maintain and optimize core network infrastructure, including TCP/IP protocols, routing/switching, pfSense firewall rules, and LAN/WAN setups.
- Proactively diagnose system bottlenecks, minimizing operational downtime and ensuring end-user systems comply with security standards.

Software Engineer | Calibre Media Co.

Nov 2024 – Aug 2025

- Developed highly interactive, responsive, and performance-optimized user interfaces using React.js for real-time dashboards and product applications.
- Engineered reusable UI component libraries and seamlessly integrated complex 3D interactive elements using Three.js.
- Collaborated with cross-functional design teams to execute pixel-perfect UI/UX designs using TailwindCSS and Framer Motion.
- Managed RESTful API integrations using Axios and successfully deployed scalable web applications on Vercel.

Software Engineer Intern | Equinox Devs LLP.

Sept 2024 – Nov 2024

- Built and maintained modular frontend components for scalable MERN/MEAN stack web applications.
- Utilized JavaScript and TailwindCSS to build responsive landing pages, ensuring high cross-browser compatibility.
- Leveraged Git and GitHub for team-based version control and peer code reviews.

Software Engineer Intern | Techlogix (PVT.) Ltd.

June 2024 – Aug 2024

- Completed an intensive engineering internship focused on advanced modern React.js architectures.
- Contributed directly to production-level codebases under the direct mentorship of senior software engineers.

WordPress Developer | Systechware

May 2023 – May 2024

- Engineered and managed full-scale enterprise e-commerce platforms using WordPress and WooCommerce.

- Handled database optimization, product catalog management, and backend debugging utilizing PHP and phpMyAdmin.
- Maintained a 100% customer satisfaction rate by rapidly diagnosing and resolving complex plugin and theme bugs.

WordPress Developer | Fawzan & Zoraiz

Dec 2022 – Mar 2023

- Designed, customized, and deployed responsive WordPress websites tailored to specific client specifications.
- Transitioned into full-stack JavaScript development, gaining deep hands-on familiarity with core vanilla JS methodologies.

Software Engineer Intern | Developer's Alley

July 2022 – Sept 2022

- Mastered core foundations of frontend development (HTML5, CSS3, JavaScript, and React.js).
- Built independent JavaScript applications and assisted senior engineers with frontend feature releases.

EDUCATION

Bachelor of Science in Computer Science (BSCS) | University of Central Punjab, Lahore, Pakistan (2018 – 2022)

FSc Pre-Engineering | Government College of Science, Lahore, Pakistan (2016 – 2018)

CERTIFICATIONS & SOFT SKILLS

- **Certifications:** Microsoft Certified: DevOps Azure Engineer (2022) | The Complete Web Development Course (MERN Stack) – Udemy (2023)
- **Soft Skills:** AI-Augmented Workflows, Rapid Prototyping, On-Site Branch Support, Leadership & Collaboration, Acute Attention to Detail, Adaptive Continuous Learner.
